Summary

Information Technology undergraduate and aspiring Data Scientist & AI Developer with hands-on experience in Python, SQL, Flask, Streamlit, PostgreSQL, RAG, and Generative AI. Experienced in building AI-powered applications, data-driven solutions, and practical software projects.

Technical Skills

Languages: Python, Java, SQL

AI & Data: Generative AI, RAG, Data Analysis, Machine Learning

Frameworks/Libraries: Flask, Streamlit, Pandas, Plotly

Databases: PostgreSQL, SQLite

Tools: Git, GitHub, VS Code, Postman

Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems

Experience

Artificial Intelligence & Machine Learning Trainee

4 Weeks

KodeZen Technologies

AI/ML Training

- Completed practical training covering Artificial Intelligence, Machine Learning fundamentals, data analysis, and AI application development.

Web Development Training

A+ Grade

CSVТУ

HTML, CSS & JavaScript

- Completed vocational training in web development with hands-on exposure to HTML, CSS, JavaScript, and web application fundamentals.

Projects

AI Resume Analyzer | Python, Flask, SQLite, Google Gemini

- Built an AI-powered resume analyzer providing ATS-oriented scoring, keyword analysis, and AI-generated resume improvement feedback.
- Implemented resume upload and analysis workflows using Flask, SQLite, HTML, and CSS.

Ask My Docs – RAG Application | Python, RAG, Docker, Vector Search

- Developed a document question-answering application using Retrieval-Augmented Generation to answer questions from user-uploaded documents.
- Implemented document processing, retrieval, contextual responses, and Docker-based deployment.

AI-Powered Manufacturing Agent | Python, Flask, Groq, SQLAlchemy

- Developed an AI-powered manufacturing assistant using Python, Flask, and Groq for intelligent manufacturing-related interactions.
- Integrated SQLAlchemy and SQLite with a modular architecture containing agents, services, models, data, and web interfaces.

Snake Game | Python

- Developed a Python-based Snake Game implementing player movement, collision detection, scoring, and game logic while applying programming and OOP concepts.

Certifications

- 100 Days of Code: The Complete Python Pro Bootcamp – Udemy
- Artificial Intelligence & Machine Learning – KodeZen Technologies
- Web Development using HTML, JavaScript & CSS – CSVТУ (A+ Grade)
- Create a Great Professional Resume – IBM

Education

Shri Shankaracharya Technical Campus, Bhilai

Expected Graduation: 2027

B.Tech in Information Technology

CGPA: 8.05 / 10
